

Stitch Era Liberty

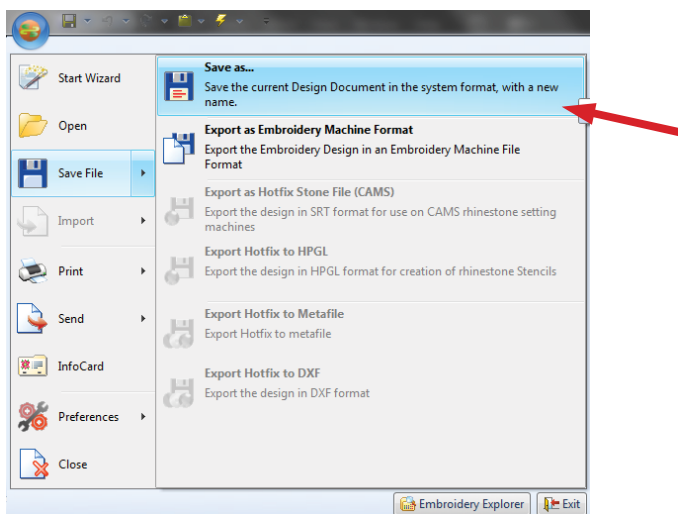

Version 11.41

Saving a Design

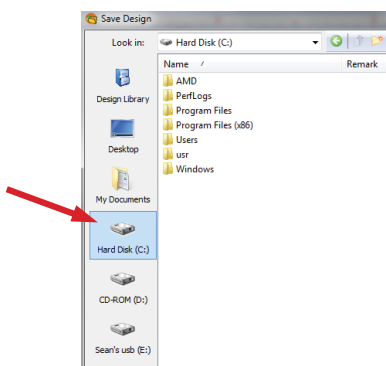

Left click on the Universal icon at the top left of the screen.

Put your mouse over “save” to highlight and a sub menu will open. Select save as.

Next you will want to choose a destination. (C drive, USB drive, etc..)

At the bottom of this window by “File Name”, give your design a name. If this is a design you have digitized. You want to leave the file type as .DSG. So when you want to edit your design at a later time. You will be able too. This is the software’s own file extension. Leaving it in a condensed format, gives you the opportunity to edit. Then select save at the bottom right.
