# Stitch Era Liberty

Version 11.41
Open an image

Once you are at the software's main page. You are ready to open an image. Such as a stock design or a design digitized by someone else.

Select create new icon at the top left. By placing the mouse over the icon, you will notice it has a top half and a bottom half. Left click on the bottom half. It will give you the drop down menu. Blank design or start wizard. Left click on blank design. This will open up a blank page.

After the blank page opens up, left click on open image.

Select the destination where your image is located. Left click on the file and select open.
