

Saving and Restoring Images

PRODUCTS USED
DFX Print Optimizer

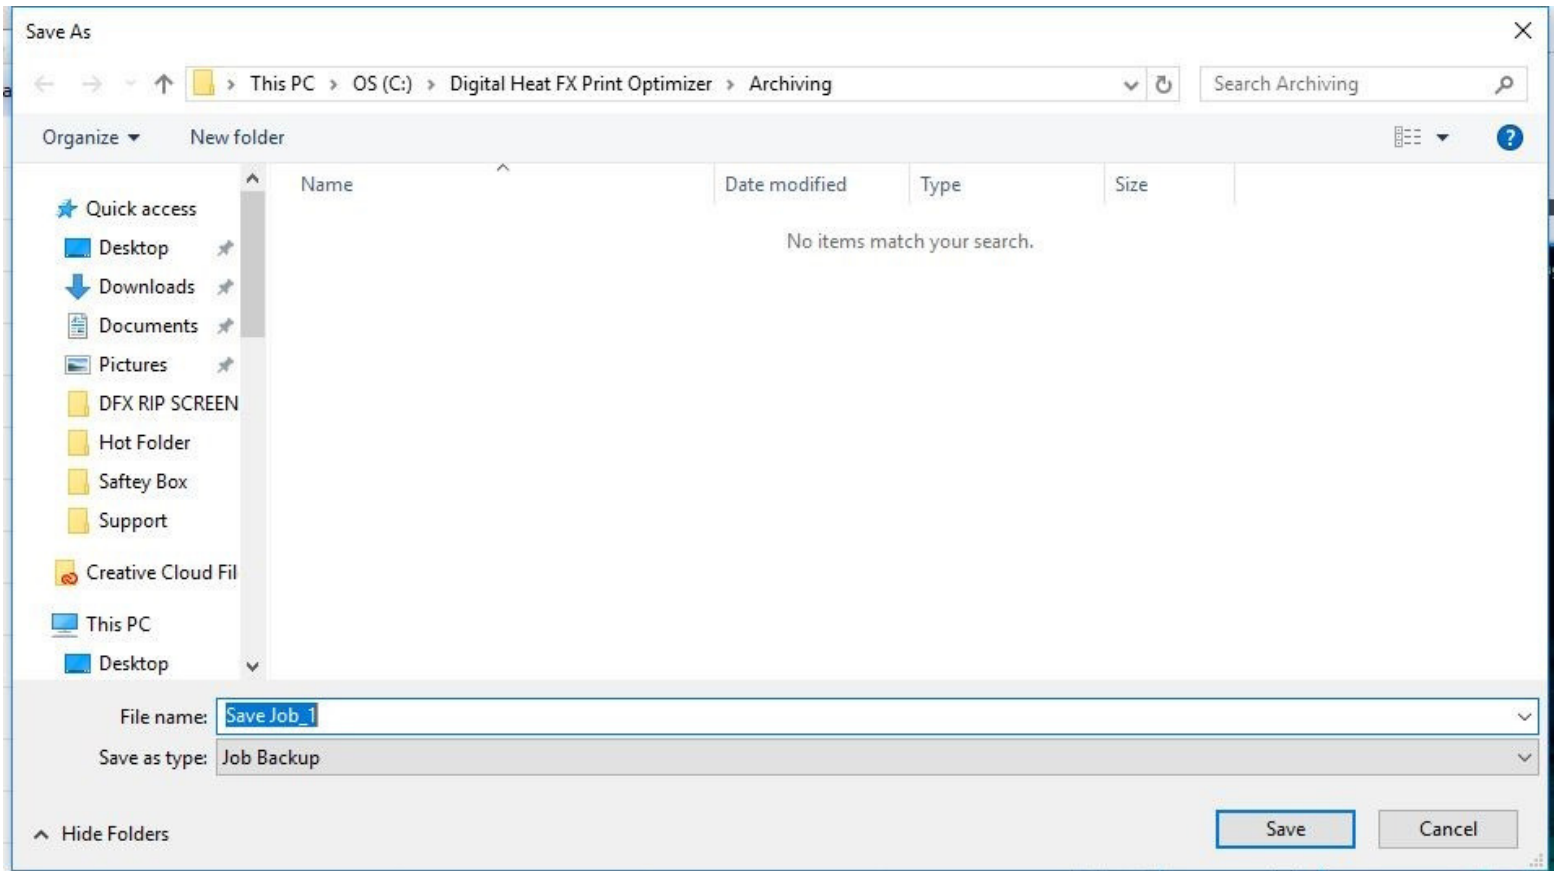

For DFX Print Optimizer

SAVING

1. Select the file that you wish to save in your Queue in the Print Optimizer software. Right click on it and when the list of options appears, click on "Save As...".

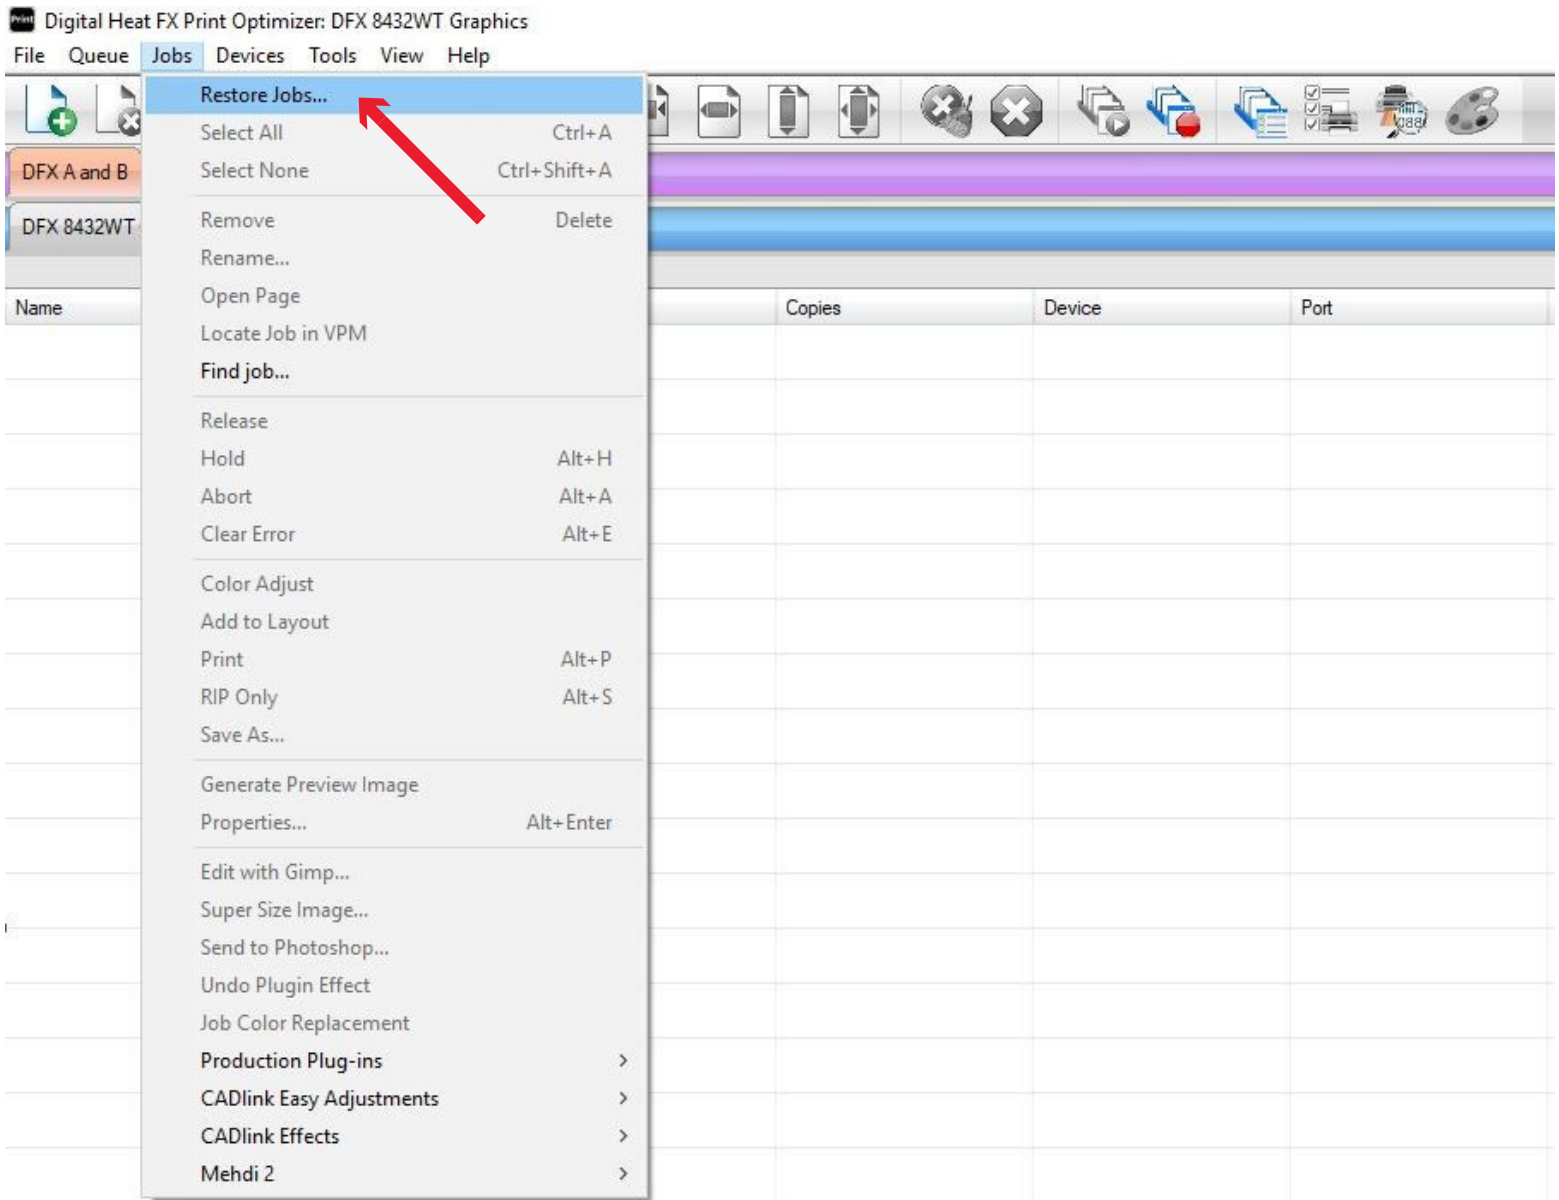

2. Choose the destination where you would like to save the image to. The default destination is set to go to **C:\ > Digital Heat FX Print Optimizer > Archiving**. You can create a new folder within the Archiving folder if you choose to, or save it somewhere else. Name the file and click "Save".

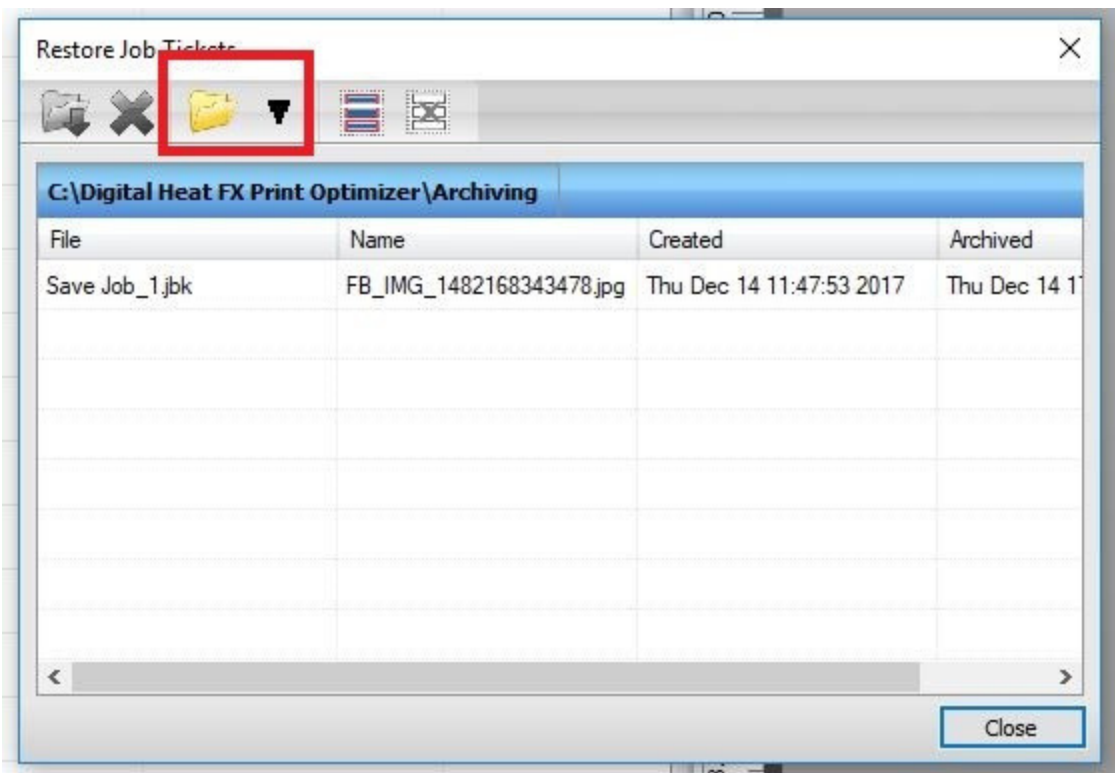

RESTORING

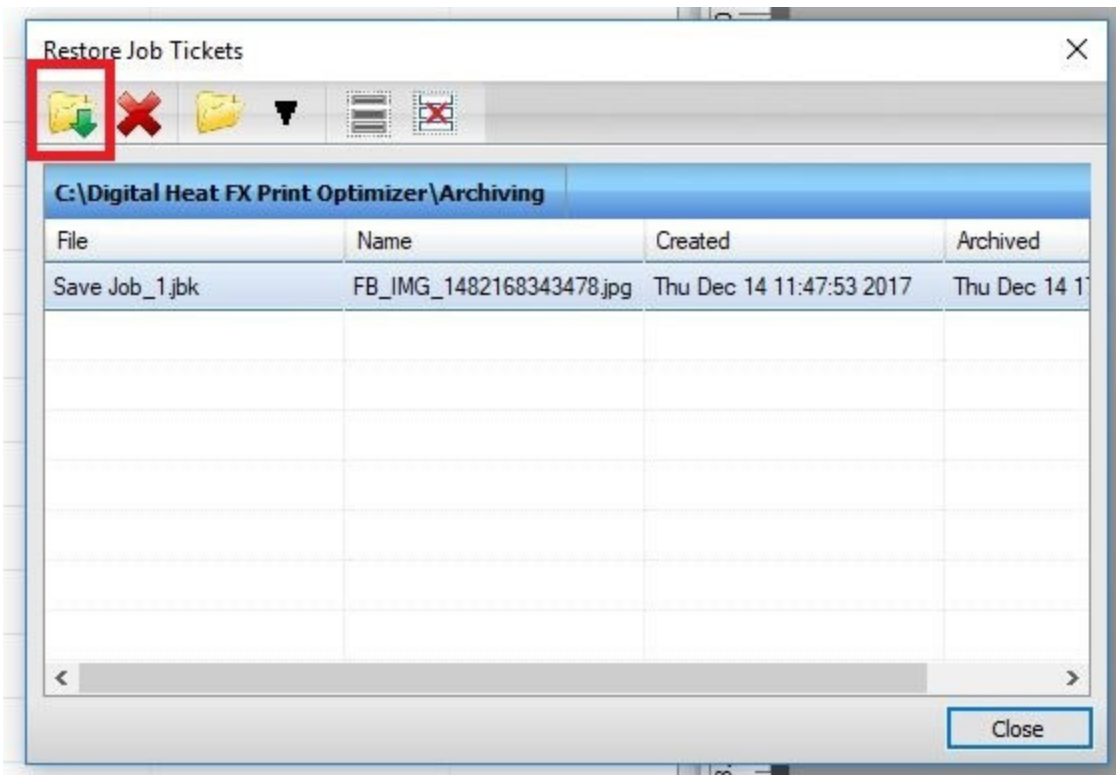

1. In the Print Optimizer software, click on "Jobs" at the top of the page. Then, click on "Restore Jobs..."

2. You will find your saved image in the "Restore Job Tickets" pop-up window. If you saved the file to another folder, simply click on the Folder icon with the black arrow to locate and open the folder.

3. Click on the job that you wish to restore. Then, click on the Folder icon with the **green down arrow**, and it will bring the job back into the queue. Then, click "Close".
