**DFX Print Optimizer** 

For DFX Print Optimizer

Occasionally, it is beneficial to check for version updates to the Print Optimizer software. To check for and to install updates:

1. Open the Print Optimizer software.

2. Locate and click on "Devices" on the top menu bar. Then, click on the first option from the drop-down menu, "Manage Devices...".

5. Print Optimizer will begin installing the updates to the software. You will know the update is completed when the two status bars are fully green and the window says "Installation Complete". Once it is complete, you can click on the Close button to close the Manage Devices window and proceed with using the software as normal.
