

Adding the Roland BN20 and BN20(A) back into the VersaWorks.

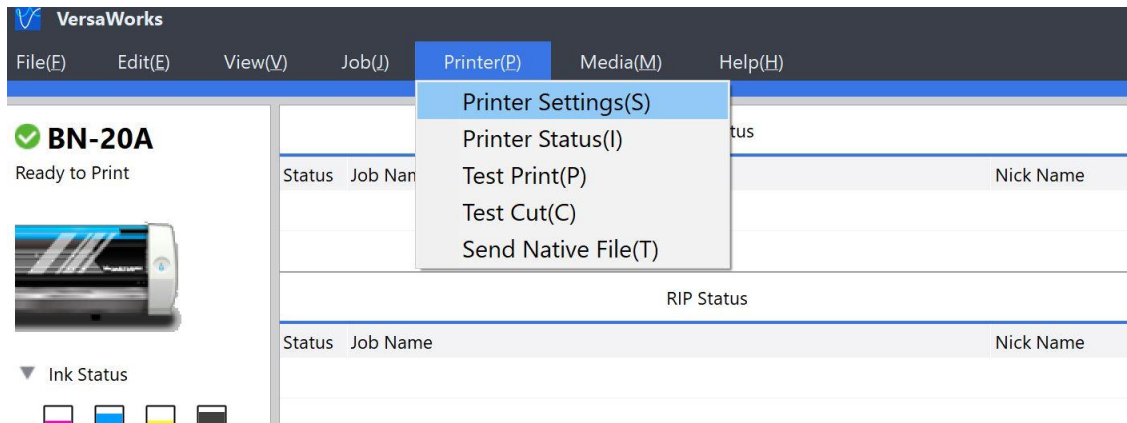

If you have just recently did the Update for VersaWorks and not the BN20 or BN20(A) does not print.

Open VersaWorks

On the TOP of the Window.

Click On **Printer (P)**

**Printer Settings (S)**

In the Printer Setting Window.

Click on the **Printer Driver (U)**

Click on the Drop-Down Arrow for **Printer Name (O)**

Select the **Roland BN20 or BN20A**

Click on **Verify (V)** **\*\*When you Click on Verify your Model Name, Firmware Version and Serial Number will populate\*\***

Click on **Apply**

Click on **OK**

# Printer Settings
